Outdoor Cooking Specialty Gas Appliance
Appareil spécial de cuisson à gaz pour l'extérieur
Aparato Especial De Gas Para Cocinar Al Aire Libre

Read this manual carefully before assembling, using or servicing these stoves. ASSEMBLER/INSTALLER: Leave these instructions with the consumer. CONSUMER/USER: Read all instructions and keep them in a safe place for future reference. If you have questions about assembly, operation, servicing or repair of these stoves, please call Coleman at 1-800-835-3278 or TDD: 316-832-8707. In Canada call 1-800-387-6161.

English**DANGER****If you smell gas:**

- Shut off gas to the appliance.**
- Extinguish any open flame.**
- Open lid.**
- If odor continues, keep away from the appliance and immediately call your gas supplier or your fire department.**

WARNING

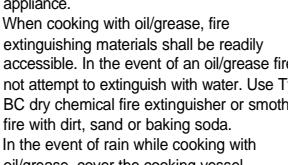

- Do not store spare LP cylinder within 10 feet (3 m) of this appliance.**
- Do not store or use gasoline or other flammable liquids or vapors within 25 feet (8 m) of this appliance.**
- When cooking with oil/grease, do not allow the oil/grease to get hotter than 350°F (177°C).**
- Do not leave oil/grease unattended.**

DANGER

Failure to comply with the precautions and instructions provided with this outdoor stove can result in death, serious bodily injury and property loss or damage from hazards of fire, explosion, burn, asphyxiation, and/or carbon monoxide poisoning.

Only persons who can understand and follow the instructions should use or service this outdoor stove.

If you need assistance or outdoor stove information such as an instruction manual or labels, contact The Coleman Company, Inc.

DANGER**CARBON MONOXIDE HAZARD**

- This appliance can produce carbon monoxide which has no odor.**
- Using it in an enclosed space can kill you.**
- Never use this appliance in an enclosed space such as a camper, tent, car or home.**

CAUTION

- The use of alcohol, prescription or non-prescription drugs may impair your ability to properly assemble or safely operate the appliance.
- When cooking with oil/grease, fire extinguishing materials shall be readily accessible. In the event of an oil/grease fire, do not attempt to extinguish with water. Use Type BC dry chemical fire extinguisher or smoother fire with dirt, sand or baking soda.
- The stove must remain upright. If lying with oil/grease, cover the cooking vessel immediately and turn off the appliance burners and gas supply. Do not attempt to move the appliance or cooking vessel.
- When cooking, the appliance must be on a level, stable surface in an area clear of combustible material. An asphalt surface (blacktop) may not be acceptable for this purpose.
- Do not leave the appliance unattended. Keep children and pets away from the appliance at all times.
- Do not place empty cooking vessel on the appliance while in operation. Use caution when placing items in cooking vessel while the appliance is in operation.
- Do not move the appliance when in use. Allow the cooking vessel to cool before moving or storing.
- This appliance is not intended for and should never be used as a heater.

This manual contains important information about the assembly, operation and maintenance of this outdoor propane appliance. General safety information is presented on this page and is also located throughout these instructions. Particular attention should be paid to information accompanied by the safety alert symbol.

DANGER, *WARNING*, *CAUTION*.

Keep this manual for future reference and to educate new users of this product. This manual should be read in conjunction with the labeling on the product.

Safety precautions are essential when any mechanical or propane fueled equipment is involved. These precautions are necessary when using, storing, and servicing. Using this equipment with the respect and caution demanded will reduce the possibility of personal injury or property damage.

The following symbols shown below are used extensively throughout these instructions. Always heed these precautions, as they are essential when using any mechanical or propane fueled equipment.

DANGER

DANGER indicates an imminently hazardous situation which, if not avoided, will result in death or serious injury.

WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate personal injury, or property damage.

IMPORTANT

Read this manual carefully before assembling, using or servicing these stoves. ASSEMBLER/INSTALLER: Leave these instructions with the consumer. CONSUMER/USER: Read all instructions and keep them in a safe place for future reference. If you have questions about assembly, operation, servicing or repair of these stoves, please call Coleman at 1-800-835-3278 or TDD: 316-832-8707. In Canada call 1-800-387-6161.

Français**DANGER****Si vous sentez le gaz:**

- Arrêtez l'alimentation en gaz à l'appareil.**
- Éteignez toutes flammes nues.**
- Ouvrez le couvercle.**
- Si l'odeur persiste, appelez sur-le-champ votre fournisseur de gaz ou votre service des incendies.**

WARNING

We cannot foresee every use which may be made of our products.

Check with your local fire safety authority if you have questions about use.

Other standards govern the use of fuel gases and heat producing products for specific uses. Your local authorities can advise you about these.

• Never refill disposable cylinders.

• Use the preset regulator that came with the stove. Do not attempt to adjust.

• The installation must conform with local codes or, in absence of local codes, with the National Fuel Gas Code, ANSI/NFPA 54, Storage and Handling of Liquefied Petroleum Gases, ANSI/NFPA 58 or CSA B149.1, Natural Gas and Propane Installation Codes.

• This appliance is not intended to be installed in or on recreational vehicles and/or boats.

• This appliance is not intended for commercial use.

DANGER

• CARBON MONOXIDE HAZARD

This stove is a combustion appliance. All combustion appliances produce carbon monoxide (CO) during the combustion process. This product is designed to produce extremely minute, non-hazardous amounts of CO if used and maintained in accordance with all warnings and instructions. Do not block air flow into or out of the stove.

• Carbon Monoxide (CO) poisoning produces flu-like symptoms, watery eyes, headaches, dizziness, fatigue and possibly death. You can't smell CO, so you can't smell it. If an individual falls ill, if these symptoms are present during operation of this product get fresh air immediately!

• For outdoor use only. If stored indoors, detach cylinder outdoors.

• Never use inside house, camper, tent, vehicle or other unventilated or enclosed areas. This stove consumes air (xygen). Do not use in unventilated or enclosed areas to avoid endangering your life.

WARNING

This product is fueled by propane gas. Propane gas is invisible, odorless, and flammable. An odorant is normally added to help detect leaks and can be described as a "rotten egg" smell. The odorant can fade over time so leaking gas is not always detectable by smell alone.

• Use only propane gas set up for vapor withdrawal.

• Cylinders should be stored or used in compliance with local ordinances and codes or ANSI/NFPA 58. Turn off propane and disconnect cylinder when not in use.

• Cylinders must be stored out of reach of children.

CAUTION

• This product is fueled by propane gas. Propane gas is invisible, odorless, and flammable. An odorant is normally added to help detect leaks and can be described as a "rotten egg" smell. The odorant can fade over time so leaking gas is not always detectable by smell alone.

• Use only propane gas set up for vapor withdrawal.

• Cylinders should be stored or used in compliance with local ordinances and codes or ANSI/NFPA 58. Turn off propane and disconnect cylinder when not in use.

• Cylinders must be stored out of reach of children.

WARNING

California Proposition 65: WARNING: This fuel, and byproducts of combustion of this fuel, contain chemicals known to the state of California to cause cancer, birth defects, or other reproductive harm.

Si vous avez besoin d'aide ou de renseignements - notice d'emploi ou étiquettes, par exemple - contactez The Coleman Company, Inc.

CAUTION

• SERVICE SAFETY

• Keep all connections and fittings clean. Inspect propane cylinder and stove propane connections for damage before attaching.

• During set up, check all connections and fittings for leaks using soapy water. Never use a flame. Bubbles indicate a leak. Check that the connection is not cross-threaded and that it is tight. Perform another leak check. If there is still a leak, remove the cylinder and contact Coleman customer service.

• Use as a cooking appliance only. Never alter in any way or use with any device or part not expressly approved by Coleman.

• Clean stove frequently to avoid grease accumulation and possible grease fires.

Technical Characteristics

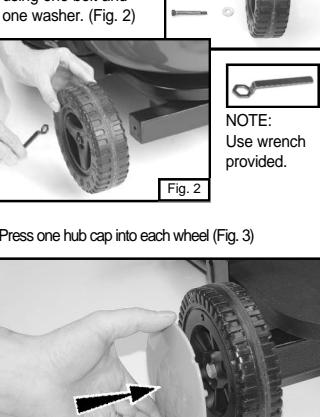

Input: 10,000 BTU/H per burner
Category: Pressure regulated propane
Fuel: 16.4 oz. disposable propane cylinders
Regulator: 9949

Assemble Stove

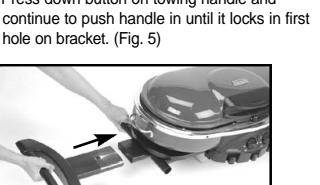

CONSUMER NOTICE: These instructions are designed for more than one stove model. Features shown MAY NOT be in your stove and will not be provided by this company or at the place you purchased your stove.

- Remove stove, wheels, handle, and regulator from packaging. (Fig. 1)
- Inspect all packing and remove all parts.
- See carton for parts included with your unit.

(1) Stove (1) Regulator (1) Orifice Fitting (1) Cast Iron Grill (1) Cast Iron Griddle (1) Wheel hardware (1) Stove Ring (2) Hubcaps (1) Patio cover (not shown) (1) Wrench (1) Drip Tray

■ Assemble wheels to stove base. Attach each wheel to axle using one bolt and one washer. (Fig. 2)

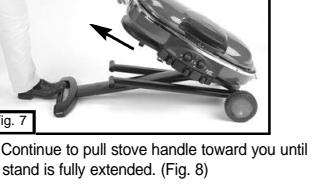

NOTE: Use wrench provided.

■ Press one hub cap into each wheel. (Fig. 3)

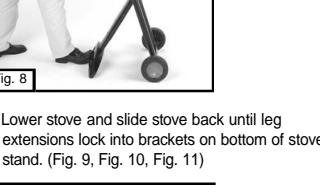

■ Insert towing handle into bracket on stove stand. (Fig. 4)

■ Press down button on towing handle and continue to push handle in until it locks in first hole on bracket. (Fig. 5)

■ Once handle is locked in position, the stove can easily be moved to any location in your campsite or backyard. (Fig. 6)

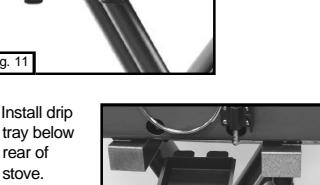

To Set Up

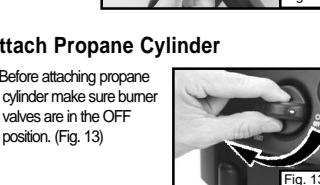

■ Place foot on plastic towing handle, grasp metal handle on stove and lift until stand is fully extended. (Fig. 7)

■ Continue to pull stove handle toward you until stand is fully extended. (Fig. 8)

■ Lower stove and slide stove back until leg extensions lock into brackets on bottom of stove stand. (Fig. 9, Fig. 10, Fig. 11)

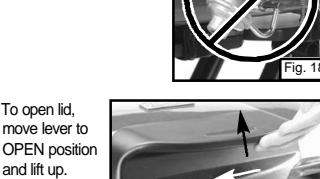

■ Install drip tray below rear of stove. (Fig. 12)

Attach Propane Cylinder

■ Before attaching propane cylinder make sure burner valves are in the OFF position. (Fig. 13)

■ Remove plastic cap from top of propane cylinder and screw cylinder into regulator hand tight. (Fig. 14)

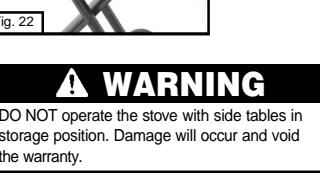

■ Lift up on cylinder support on back of stove and swing out. (Fig. 15)

■ Screw regulator into stove hand tight. (Fig. 16)

■ Place cylinder into cylinder support. (Fig. 17)

■ Never operate stove with propane cylinder in an inverted position. (Fig. 18)

■ To open lid, move lever to OPEN position and lift up. (Fig. 19)

■ Place a grill, griddle, or stove ring over each burner. (Fig. 20, 21, and 22)

■ To extend side tables, grasp hold of side tables on bottom of stove and slide out until fully extended. (Fig. 23)

WARNING

DO NOT operate the stove with side tables in storage position. Damage will occur and void the warranty.

■ To extend side tables, grasp hold of side tables on bottom of stove and slide out until fully extended. (Fig. 23)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ When transporting stove, ensure that lid is locked. (Fig. 35)

■ Make sure to push down on stove to lock leg brace from brackets under stove. (Fig. 36 and Fig. 37)

■ Fold up stove stand. (Fig. 38 and Fig. 39)

■ Make sure to push down on stove to lock leg brace from brackets under stove. (Fig. 38 and Fig. 39)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)

■ Make sure to push down on stove to lock bracket on bottom of stove onto tongue brace. (Fig. 40)
